COLOR FORMULA HEADING CODES

CODE	TECHNOLOGY	SERIES
A	Acry Glo® High Solids	830 Series
AF	Acry Glo® High Solids (Flat)	830 Series
AS	Acry Glo® High Solids (Satin)	830 Series
E	JetFlex® Urethane (Flat)	981300 Series
F	JetFlex® Water Reducible (Flat)	981400 Series
F63	Polane® L	F63 Series
F92	Semi Gloss 85285	F92 Series
F93	Lusterless 85285	F93 Series
F94	Gloss 85285 Type I and IV	F94 Series
GS	Soft Swade® – Flat	GS Series
H	Acry Glo® Conv. Metallic	571 Series
HE	Acry Glo® Conv. Effect (Metallic and Pearl)	571 Series
HP	Acry Glo® Conv. Pearl	571 Series
H99	Polane® L	H99 Series
L	JetFlex® Urethane (Satin)	981300 Series
LP	JetFlex® Elite (Single Stage Satin)	981300 Series
LPR	JetFlex® Elite Two Stage (Satin)	981300 Series
M	Acry Glo® High Solids Metallic	830 Series
ME	Acry Glo® HS Effect (Metallic and Pearl)	830 Series
MP	Acry Glo® High Solids Pearl	830 Series
P	JetFlex® Water Reducible (Satin/Semi Gloss)	981400 Series
S	SKYscapes® Opaque	850 Series
SG	SKYscapes® General Aviation Opaque	855 Series
SGE	SKYscapes® General Aviation Effect	855 Series
SGM	SKYscapes® General Aviation Metallic	855 Series
SGP	SKYscapes® General Aviation Pearl	855 Series
SH	SKYscapes® Shimmer Coat	850 Series
SM	SKYscapes® Metallic	850 Series
SN	SKYscapes® Next Generation	850 Series
SNP	SKYscapes® Next Generation Mica	850 Series
SP	SKYscapes® Mica/Pearl	850 Series
SV	SKYscapes® Vibrant Opaque	850 Series
T	Acry Glo® Conventional	571 Series
U	Jet Glo® Conventional	570 Series
W	Acry Glo® Conventional	571 Series
X	JCX™ Opaque	880 Series
Y	Jet Glo Express™	840 Series (90% White)
YM	Jet Glo Express™ – MIL-PRF-85285	840 Series (90% White)
Z	Jet Glo Express™	840 Series
ZM	Jet Glo Express™ – MIL-PRF-85285	840 Series

All aerospace coatings from Sherwin-Williams intermix colors are assigned a specific product code letter followed by a five-digit number. The letter identifies the technology and the numbers identify the color number.

EXAMPLE:

Color – Team Blue 07450

Jet Glo® Conventional = U07450

Acry Glo® High Solids = A07450

FACTORY PACKED COLORS »»

Factory pack whites are designated by "CM0" followed by a 6-digit number. A 3-digit series Code followed by a 3-digit Color Designation Number.

Example:

Jet Glo Express™ (840 Series)
Matterhorn White = **CM0**840103

SKYscapes® (850 Series)
Snow White = **CM0**850102

GLOSS LEVELS »»

Shown on a 60° specular gloss scale. Here are the various gloss ranges of all of the aerospace coatings top-coats offered by Sherwin-Williams.

High Gloss	85° +
Semi-Gloss MIL-PRF-85285	15°-45°
Satin – JetFlex®	20°-30°
Semi-Gloss – Polane® L	20°-30°
Flat – JetFlex®	8°-12°
Low-Gloss – Polane® L	8°-12°
Flat – Polane® L	0°-5°
Lusterless MIL-PRF-85285	0°-5°
