A TRIBUTE TO TIMELESS ELEGANCE. INTRODUCING OUR 2026 COLOR OF THE YEAR.

WHAT IS COLOR OF THE YEAR?

Precisely selected by our illustrious panel of color experts, Universal Khaki is an essential, warmer neutral that invites unlimited potential. This color embodies minimal simplicity while evoking effortless sophistication.

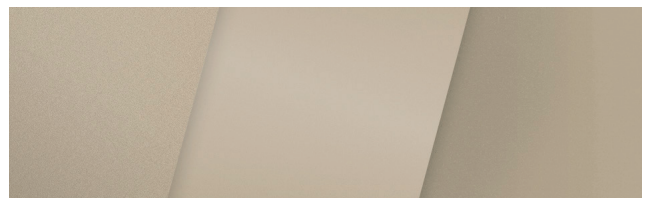

VERSATILE AESTHETIC

It's in the name — it's universal. From metal roofing to wall panels, Universal Khaki is adaptable to all your project needs. Whether used boldly on architectural surfaces or subtly integrated into product design and branding, Universal Khaki brings a sense of simplicity and practicality to any project. Its ability to harmonize with other tones or stand alone confidently results in endless possibilities for creative expression.

CREATE YOUR CONNECTION

Universal Khaki is a refined neutral that brings a sense of warmth and grounded poise to any space. Its subtle depth and versatility creates an inviting atmosphere where design feels both restorative and elevated. This modern essential is tailored for timelessness to inspire thoughtful creativity that lasts.

Adapt Universal Khaki to all your design desires with coil and extrusion applications. From shimmering effects to bold mattes, the versatile neutral offers a variety of finishes tailored to your application needs. You can specify Universal Khaki in multiple finishes such as Fluropon® and WeatherXL™, as well as a wide variety of special effects including Kameleon and Nova.

COLORS TO REMEMBER

To mark the 15th anniversary of Sherwin-Williams Color of the Year, our color experts introduced the first-ever Color Capsule of the Year in 2025. Thoughtfully curated and emotionally resonant, the capsule celebrates a legacy of color leadership with a collection of six versatile hues.

From the comforting warmth of Grounded to the adaptable airiness of Sunbleached, each shade reflects a balance of nature and modernity. Rich colors like Rain Cloud and Bosc Pear energize the capsule, while Clove and Malabar add depth and sophistication.
