
EVERGREEN FOG IS OUR 2022 COLOR OF THE YEAR.

WHAT IS COLOR OF THE YEAR?

Evergreen Fog was imagined by our color experts, a result of their relentless observation and researching of trends. The result is our 2022 Color of the Year, a beautiful shade of calm that will be popular with homeowners, designers and architects alike.

BUILD SOMETHING BEAUTIFUL

Our 2022 Color of the Year is perfect for your product or next project. For architects and product manufacturers, Evergreen Fog will bring a calming aesthetic to your vision, making it look incredible, so it lasts for generations to come.

A BEAUTIFUL BEGINNING

Our 2022 Color of the Year is a versatile and calming hue of gorgeous green-meets-gray, with just a bit of blue, depending on the light. It's a simple but sophisticated wash of beautiful color for any exterior space. It allows you to truly discover the balance between the familiar and the fantastical — between seeking sun and rooting deeply. In the soft organic shade of Evergreen Fog, we find meaning, a place to heal, a lasting peace.

From beautiful sparkling metallic to a stunning matte finish, Evergreen Fog creates a calm and grounding environment infused with quiet confidence, complementing our intrinsic need as humans to interact with nature. You can specify these colors in multiple finishes such as Fluropon and Valflon, as well as a wide variety of special effects including Kameleon and Nova.

COLORS OF DISTINCTION

Our Color of the Year sets the tone for what's coming next. By utilizing elements from the world around us, we're able to discover a hue that's truly unique and representative of our shared future. In 2020, we named Naval as our Color of the Year. 2021 saw Urbane Bronze rise to the top.

AT YOUR SERVICE

We're here to help, and we'd like to work with you on your next project. If you have questions, contact: E: 866-351-6900 C: 888-306-2645 or coilhelp@sherwin.com. Visit coil.sherwin.com/color/coloroftheyear
