

POLYPREMIER™

Where Innovation Meets Customization

SHERWIN-WILLIAMS
Coil Coatings

POLYPREMIER™

WHERE INNOVATION MEETS CUSTOMIZATION

At Sherwin-Williams Coil Coatings, we are constantly innovating to ensure we formulate the best products and solutions for our customers. That's why we are proud to bring you the exciting new name in the polyester technology space - PolyPREMIER. This best-in-class polyester coating line can be customized to meet the varied product needs that are required in today's markets. The same high-performance polyester coatings you know and trust are now under one platform to make it simpler for you to understand the distinctive characteristics of our technology, specify coatings for your unique applications and capitalize on our unparalleled responsiveness and expertise.

HIGH-PERFORMANCE COATINGS FOR EVERY PRODUCT

CUSTOMIZED SOLUTIONS TO MEET YOUR PRODUCT NEEDS

Within the PolyPREMIER™ portfolio, we have a family of coatings that are segmented by industry and end-use – allowing us to further customize your polyester coating formulations to meet your unique needs:

POLYPREMIER

- A highly-versatile polyester finish designed for a wide variety of metal building product applications and multi-purpose metal components.
- Field-proven coatings that provide tremendous durability to ensure your product will perform and impress.

POLYPREMIER Door

- Formulations that deliver optimal hardness and flexibility for garage and entry doors.

POLYPREMIER Transportation

- Extremely durable and flexible formulations for the transportation industry.

POLYPREMIER OEM

- Coatings formulated specifically for HVAC and lighting fixture markets.

POLYPREMIER Appliance

- Scratch, abrasion and stain resistant formulation with exceptional flexibility for all the unique needs of appliance coatings.

PolyPREMIER™ delivers the innovation, durability and coating performance to optimize your operations and end-products. The diverse PolyPREMIER portfolio includes polyester coating formulations to meet a wide variety of end-uses, including building products, doors, OEM, appliances, lighting fixtures, transportation and many other applications. These polyester formulations are customized to meet customer performance and application needs, depending on the end-use and market.

The following characteristics are just a few highlights of how the PolyPREMIER product line can be optimized for your application:

- Flexibility/Formability
- Non-Fogging
- High Gloss Mica/Metallic
- Textured High Gloss
- Damage Resistant
- USDA Compliant
- Optimal Reflectivity
- Exceptional Hardness
- Stain and Detergent Resistance

BENEFITS

Through customized formulations, PolyPREMIER polyesters can deliver a multitude of benefits, including:

- Outstanding resistance to sun, rain and other elements
- Exceptional abrasion and scratch resistance
- Good dirt, stain and detergent resistance
- Excellent overall adhesion
- Great flexibility & formability
- Strong exterior durability
- Optimal reflectivity

INDUSTRIES

PolyPREMIER formulations are ideal for the following industries:

- Building Products
- Door
- OEM
- Transportation
- Appliance
- HVAC
- Lighting
- And many more

SUBSTRATES

PolyPREMIER coatings can be applied to the following substrates: Aluminum, Cold Rolled Steel (CRS), Galvalume®, and Hot-Dipped Galvanized (HDG) Steel*

*Other substrates available by approval by Sherwin-Williams Coil Coatings R&D.

COMMITMENT TO QUALITY

Our coatings go through rigorous testing in the lab and are proven in the field, giving you confidence in the quality and performance of our coatings. The PolyPREMIER platform helps our customers meet or exceed industry standards, including, but not limited to:

- ASTM Requirements
- AHAM Specifications
- USDA Compliance
- Chrome-Free Options (RoHS and REACH Compliance)

CHOOSING THE RIGHT PARTNER IS KEY
