

# BEFORE IT GOES ON A BUILDING, IT GOES THROUGH A LOT

Fluropon® Extreme—Designed to hold its smooth finish from start to finish.

## PANELS FACE THREATS BEFORE THEY FACE WIND AND RAIN

So in addition to the many benefits of 70% PVDF, Fluropon Extreme offers enhanced resistance to the kinds of abrasions that can occur before it's installed—the inevitable wear and tear that occurs at the plant, on the dock, on the road, job site and during installation. And it features a distinctive smooth surface.

## DEVELOPED TO FACE EVERYDAY FRICTION

To deliver this kind of extreme protection, we used a development process like the one that led to WeatherXL™. We leveraged the science of tribology—the study of how surfaces interact in relative motion—to address the particular stress most likely to damage a panel between the fabricator and the finished building: abrasion.

## EXTREME LOW-GLOSS FINISH

Enhanced damage resistance, same great colors, in a low-gloss (8-15) smooth finish that minimizes imperfections like substrate defects, oil-canning and edge wave.

### A TEST WHICH REFLECTS REAL USE

Working with scientists at the University of Florida, our research team recreated the repetitive, sliding, surface-on-surface friction that panels are subjected to as they are fabricated, shipped and installed.

### RESULTS WERE EXTREME

Across the board, Fluropon® Extreme tested above and beyond current standards in withstanding extreme wear conditions. It also came out ahead in competitive comparisons. Expect proven damage resistance from the brand you know and trust.

### THE PROVEN BENEFITS OF FLUROPON

Fluropon Extreme delivers the advantages of 70% PVDF coatings:

- Outstanding color and gloss retention
- Extreme weathering performance
- Resistance to dirt, stains, chalk and fade

### FLUROPON EXTREME

No other coating offers both resistance to abrasion and a smooth finish. Those qualities might be just what your next project demands.

### AT YOUR SERVICE

We're here to help, and we'd like to work with you on your next project. If you have questions, contact: (888) 306-2645 or [coilhelp@sherwin.com](mailto:coilhelp@sherwin.com)
