E: 396B9958 C: 436B3605

A COLOR FOR EVERY VISION

It has never been easier to take your inspiration and turn it into a reality.

We are taking the idea of color to the next level – diving into color spaces that explore different ways that color can look and feel.

We formulate coatings that match the creativity, passion and work ethic you pour into your projects. Our team blends their expertise with innovation to create color choices that will make a statement. With over 50,000 colors in our lab, our advanced color-matching technology means no color is out of reach. From matte to high-gloss, glittery to color-shifting.

If you can dream it, we can match it.

SPECULAR GLOSS RANGES

NOTE: Gloss ranges are dependent on color and application, below is a general estimate by product and can vary with your final color selection.

	Standard	Low Sheen	Low Gloss	High Gloss
Fluoropon	E: 25-35 C: 25-35	C: 10 max	E: 5-15 C: 8-15	E: N/A C: N/A
Fluoropon Classic II	E: 15-25 C: 15-25	C: 10 max	E: 5-15 C: 8-15	E: N/A C: N/A
Fluoropon Nova	E: 30-40 C: 45-60	C: N/A	E: N/A C: N/A	E: N/A C: N/A
Fluoropon Kameleon	E: 15-25 C: 30-50	C: 10 max	E: 5-15 C: 8-15	E: N/A C: N/A
Fluoropon Texture	E: 5-15 C: 10 max	C: 10 max	E: 10 max C: 10 max	E: N/A C: N/A
Valflon	E: N/A C: 25-35	C: 10 max	E: N/A C: 8-15	E: N/A C: 60-70

*Table only includes specular gloss ranges for products included in this color guide.

Specular Gloss at 60 degrees or Sheen at 85 degrees.
+/- 5 units of manufacturer's specification.

COLOR US OBSESSED

COATINGS INSPIRATION

COIL AND EXTRUSION METAL COATINGS COLOR FINISHES GUIDE

THE BEAUTY IS IN THE DETAILS

Inspiration can strike anytime, anywhere: from a photograph in a magazine to a piece of material that needs to be color matched to a unique concept you want to incorporate in your building. Our color experts are prepared to work closely with your team to develop color schemes, picking the perfect gloss range or implementing a distinctive special effect for your next project. We're constantly thinking of what's next – researching trends and tones to stay at the forefront of design.

To create your own unique coating finish, first start with a base color that complements the aesthetic of your project. Then select a finish, which will provide a new dimension to your coating. Adding a sheen, texture or other layered effect transforms colors into another level of brilliance. And if you have a particular hue or effect in mind, tell us and we'll bring your vision to life.

On the next few pages, there are three examples of popular colors to view and discover the almost limitless possibilities that are at your fingertips for dynamic finishes. Get ready to **amplify** your color capabilities.

EXCEED EVERY STANDARD

FLUROPON®

The innovative Fluoropon® 70% PVDF coil and extrusion coating system is proven credible due to its durability. More importantly, these field-proven, high-performance architectural metal coatings have been trusted for over 50 years, meeting and often exceeding the industry's toughest standards, including AAMA 2605. With Fluoropon coatings, your vision stays as true as the day you imagined it.

VALFLON®

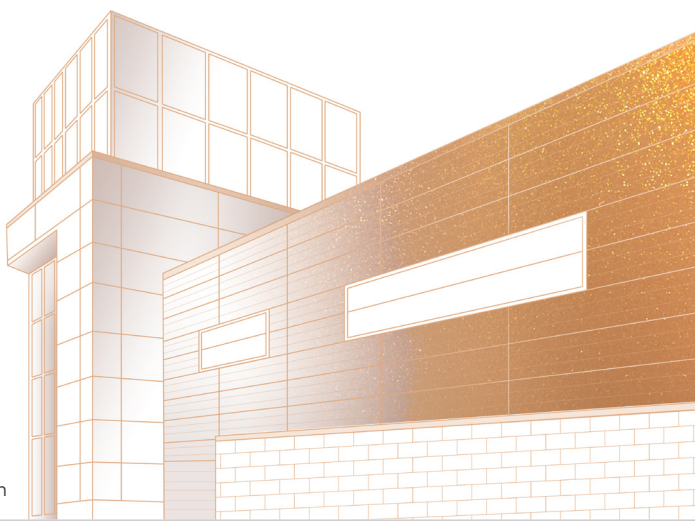

Valflon®, a FEVE coil coating system, provides a wide range of gloss levels from matte to high-gloss. This makes it the top choice for businesses and identity projects recognized by their high-impact colors. Valflon also meets the industry's toughest standards, including AAMA 2605 – so your brand stands out with a richness that never stops shining.

SHEENS & GLOSS

SUBTLE IS THE NEW BOLD

Explore the impact even a small change in the gloss of a color can make. Choose from our full range of reflective effects, from matte (low sheen/low gloss) to standard to high-gloss. No matter which direction you go, your colors will embrace the level of shine you apply as the finishing touch for your project.

2-Coat System

Burgundy, Arctic Fire
E: 39KA0093 C: 43KZ0185

Traffic Black, Purple
*E: N/A C: 43KZ0268

Traffic Black, Blue
*E: N/A C: 43KZ0269

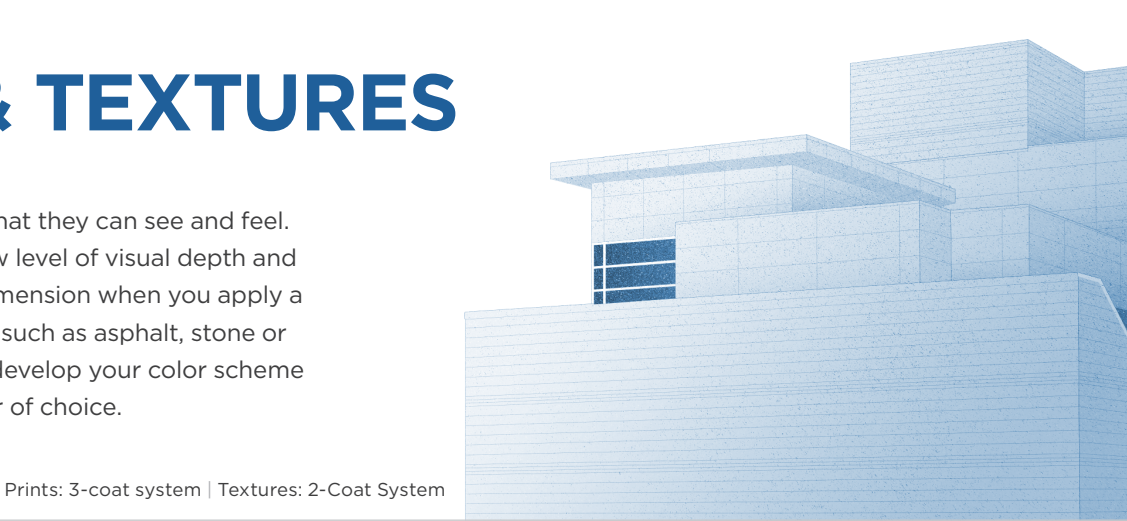

Traffic Black, Kameleon
*E: N/A C: 43KZ0271

PRINTS & TEXTURES

CREATE DISTINCTION

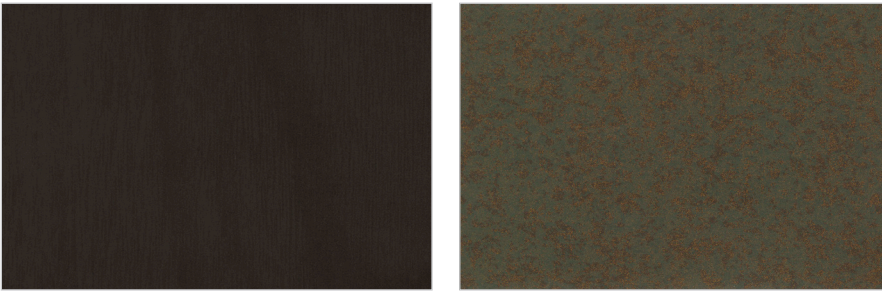

Give your projects a coating that they can see and feel. Textured finishes deliver a new level of visual depth and durability to colors. Or add dimension when you apply a print, which mimics materials, such as asphalt, stone or wooden substrates. We help develop your color scheme and work with your coil coater of choice.

Prints: 3-coat system | Textures: 2-Coat System
