**SHERWIN-WILLIAMS®**  
Coil Coatings

# OUR WORLD IS COLOR

At Sherwin-Williams, we believe in color. We think it has the power to inspire, to connect and to bring architectural visions brilliantly to life.

That's why we have spent over 150 years building a reputation for color innovation. Our color catalog expands every year with ambitious ideas and ongoing research. We achieve lasting durability and beauty through science. Most importantly, we commit to being a reliable and collaborative partner, and you can count on our innovation to inspire the world around us.

**ARCHITECT:** Valerio Dewalt Train Associates  
**METAL PANEL MANUFACTURER:** Metl-Span<sup>®</sup>  
**SHERWIN-WILLIAMS PRODUCTS:**  
Fluropon Classic II SR • Silver / 439RZ2431M

Fluropon® can be used on a variety of metal building products. The time-tested reliability of this product paired with Sherwin-Williams innovation means the only limit is what you can dream up. You provide the vision and we'll create the reality.

## COMPOSITION

### 70% PVDF COATING

All coatings in the Fluropon family are a fluoropolymer product containing 70% polyvinylidene fluoride (PVDF) resins.

## DURABILITY

Formulated to meet the industry's highest standards including AAMA 2605, Fluropon coatings continually exceed performance needs while maintaining their color and beauty for years to come.

### PERFORMANCE BENEFITS

Include color and gloss retention, flexibility, formability, extreme weather performance and graffiti-resistance.

### LASTING RESISTANCE

To ultraviolet rays, dirt and stains, chalk and fade, chemical degradation.

## END USES

Durability makes Fluropon 70% PVDF coatings ideal for exterior applications—including, but not limited to, the following:

### COIL APPLICATIONS

Metal roofing, wall panels, soffits, fascia, entry and garage doors.

### EXTRUSION APPLICATIONS

Curtain walls, aluminum panels and extrusions, windows, skylights, door and access systems, soffits and fascia.

## ARIA RESORT & CASINO™

**LOCATION:** Las Vegas, NV

**ARCHITECT:** Pelli Clarke Pelli

**METAL PANEL MANUFACTURER:**  
CENTRIA

**SHERWIN-WILLIAMS PRODUCTS:**

Valflon® • Medium Red / 734L260

Valflon • Light Orange / 734L270

Valflon • Medium Orange / 734L266

Valflon • Dark Orange / 734L267

Fluropon® coatings are available in endless color options, from traditional to bold, including a wide range of gloss levels and special effects. On top of that, our scientists are constantly working to create color spaces that have never existed before.

With our advanced color-matching system, unrivaled expertise and the latest technologies, Sherwin-Williams helps your vision shine exactly as imagined. So if you can dream it, we can do it. Let's get started.

**ORDER A SAMPLE**

# THINKING OUTSIDE THE (CRAYON) BOX

With an ever-growing catalog of options and advanced color-matching capabilities, our goal is to remove limits so you can design beyond your wildest imagination. Go ahead, dive into new territory, imagine the impossible. We'll be here to help you create it.

## SPECIAL EFFECTS

Sherwin-Williams coatings don't stop at 50,000 colors. We continually develop unique color spaces and collections including our ever-expanding line of Fluropon® Effects coatings: Nova and Kameleon™.

## ENDLESS OPTIONS

Our advanced color-matching technology means no color is out of reach. The Sherwin-Williams team is ready for any color challenge so your vision can become reality.

## ONGOING RESEARCH

When you love color like we do, your job is never done. Sherwin-Williams is constantly researching and forecasting color trends to bring the innovation to you.

# DESIGNED TO STAND THE TEST OF TIME

In order to leave a legacy, beauty needs to be tough. That's why we have put our coatings through rigorous testing for decades. We want to be able to say with confidence that the brilliant color you love will last as long as possible.

## FIELD-TESTED

Fluropon® found on iconic, monumental structures around the world, is known for its durability. It starts with our test fence facility in Fort Myers, Florida. For more than 50 years, over 10,000 panels have faced the worst conditions Mother Nature can dish out. We're proud to say it's the most accredited natural exposure facility in the coil and extrusion industry.

## PREPARED TO PERFORM

The American Architectural Manufacturers Association (AAMA) sets standards for building product performance as it relates to the fenestration industry. Thanks to our robust testing and innovation, we have a wide range of products that meet or exceed the toughest performance specifications, including AAMA.

## READY TO RESIST

We rigorously test and re-test our products for added resilience. Thanks to this research, our products are formulated to resist fading, chalking, blistering, cracking, marring, corrosion and gloss degradation.

# SUSTAINABLE SHOULD BE SIMPLE

Environmentally responsible design and materials are more pervasive now than ever. As one of the leading manufacturers of coating products in the world, Sherwin-Williams sets an example for the entire industry—a responsibility we take seriously.

## FLUROPON SR

Our Fluropon Solar Reflective (SR) coatings have the largest color palette with the highest SR values in the industry. They also help keep buildings cool, reduce energy consumption and mitigate urban heat island effect. So you can lower expenses without sacrificing design.

## FLUROPON PURE

We believe it's our responsibility to be transparent about the materials we use in our coatings. Our Fluropon Pure coatings are red-list compliant and can contribute toward LEED v4 and Living Building Challenge's Declare Programs.

## A SAFE BET ON BLUE

For the city of Detroit, public projects are a symbol of reinvention and renewal. They must also be planned within a strict budget and commitment to efficient materials.

With that in mind, Sherwin-Williams provided a mosaic of intertwining shades to help transform an old casino into a modern and modern civic space.

## FLUROPON<sup>®</sup> GOES TO WASHINGTON

As one of the largest urban infill projects in downtown Washington D.C.'s history, CityCenterDC is a mixed-use development that occupies 3.5 city blocks.

Our Fluropon coatings were used on the two office towers to help meet the projects aesthetic and performance goals. Fluropon meets or exceeds AAMA 2605 high-performance exterior specification and demonstrates reliable performance including resistance to harmful ultraviolet rays, chemical degradation and abrasions.

## HOW WE MAKE HISTORY

Color always tells a story, and in the case of the Smithsonian's American Museum of African History and Culture, it told an important one.

Each of the 3,600 customized, bronze-colored, cast-aluminum panels reflect the design of ironwork by enslaved craftsmen in Charleston and New Orleans. The architects worked with Dura Industries to develop three custom shades using Fluropon® coatings to adequately represent this history.

### SMITHSONIAN NATIONAL MUSEUM OF AFRICAN AMERICAN HISTORY AND CULTURE
