

## WELCOME TO A WHOLE NEW COLOR SPACE

Nova, the latest Fluropon® Effects coating, offers richer, deeper colors with an intense sparkle never before seen in 70% PVDF architectural metal coatings.

### TRANSFORMING THE CONCEPT OF COLOR

Bring a new dimension to a classic color: Fluropon Effects Nova can be matched to nearly ANY color—neutrals, brights, pastels, whites and even black—using gold or silver sparkle as a finish. Achieve brilliant colors that deliver the same outstanding performance as our trusted line of Fluropon 70% PVDF coatings.

### IT SPARKLES, YOU SHINE

Available for coil and extrusion applications, Nova offers a number of unique benefits including:

- Outstanding color and gloss retention
- Extreme weathering performance
- Resists dirt, stains, chalking and fading

### AT YOUR SERVICE
