

MORE PRECIOUS THAN NATURAL METAL

THE CLASSIC AESTHETIC OF NATURAL METAL MEETS THE
LASTING PERFORMANCE OF FLUROPON®

Fluoropon® Metal Trends Color Collection, made up of our flagship Fluoropon 70% PVDF coil and extrusion coatings, has the power to mimic the aesthetic of real metals. As the gold standard for building exteriors, you can achieve classic metal looks with long-lasting, highly consistent finishes.

This collection transcends the concept of color and delivers the classic appearance of natural and anodized metals. With these coatings, you can create the eye-catching sparkle of silver, simulate a copper finish, or provide a bronze metallic effect.

Fluoropon provides an economical option with greater color consistency and less maintenance than a raw metal finish. The highly durable coating system prevents metal corrosion, while keeping the same aesthetic as the day of installation.

Emulate real metal, down to the greatest detail.

FLUROPON® 70% PVDF COIL AND EXTRUSION COATING SYSTEMS

Fluoropon 70% PVDF coating systems for exterior metal building products offer excellent weathering performance in a wide range of color and aesthetic options.

PERFORMANCE

Trusted on monumental projects around the globe for over 50 years, Fluoropon delivers:

- Long-Lasting Color and Gloss Retention
- Flexibility and Formability
- Resistance to Dirt, Stains and Chemical Degradation

RIGOROUS TESTING

Fluoropon meets or exceeds the industry's most rigorous testing standards, including AAMA 2605 requirements. Fluoropon undergoes ongoing accelerated laboratory testing and natural, long-term weather testing to ensure its exceptional performance against the elements.

COLOR

Fluoropon is available in a wide range of color and gloss options, including custom color formulations to meet your specific design needs. From solids to mica/metallics to special effects, Fluoropon can help bring any design to life in vivid color.

CONTACT US

Sherwin-Williams Coil Coatings has formulated over 50,000 architectural metal coating colors, including custom matches. Request your custom color or order samples today at coil.sherwin.com or call 866.351.6900. (Select colors shown)

FLUROPON® COATINGS APPLICATIONS

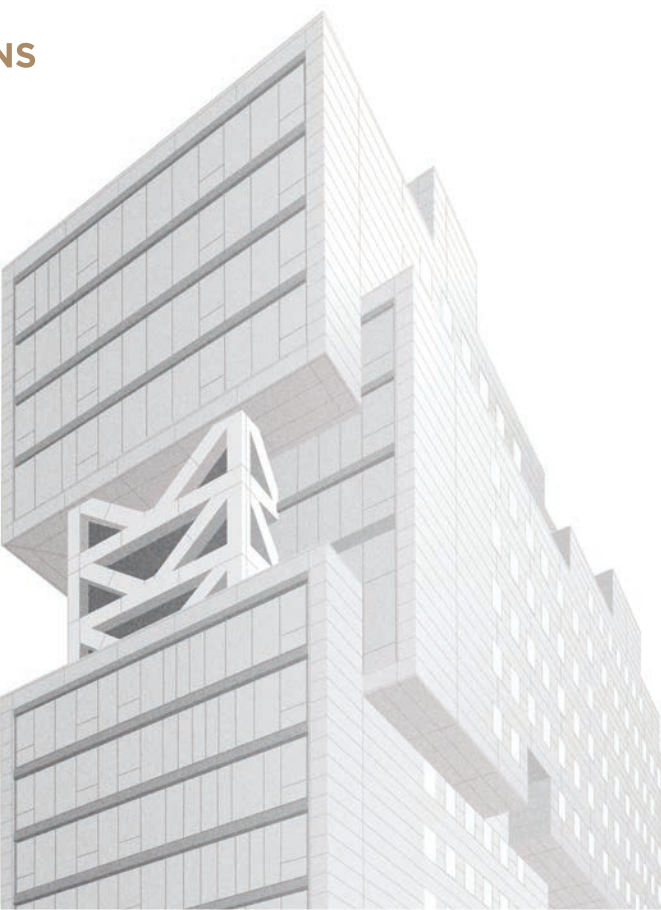

All Fluoropon products are applied in-factory by approved coil coaters and extrusion applicators. For more information on approved applicators and Fluoropon end-use applications, contact your local Sherwin-Williams Coil Coatings representative or visit coil.sherwin.com.

COIL (PRE-PAINT)

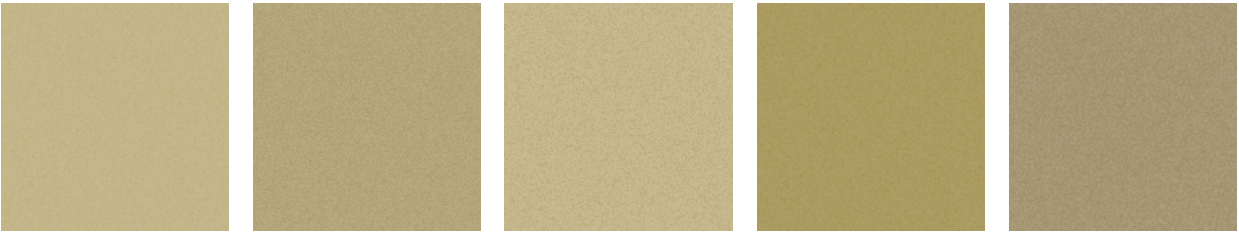

Metal Wall Panels
Metal Roofing
Soffits
Fascia

EXTRUSION (POST-PAINT)

Curtain Wall
Window and Door Frames
Aluminum Extrusions
Extruded Aluminum Panels
Skylights
Sunshades
