TECHNICAL SUPPORT

Our Volvo team, headquartered at Sherwin's campus in **Märsta (Sweden)**, and our facility and distribution centre in **Nässjö (Sweden)**, are fully equipped with the most advanced technology on finishing operations, analytical testing equipment and quality control processes. Our class-leading portfolio of **over 200 products** in liquid, powder and e-coat technologies is produced to exacting standards. Large or small, the quality of the service, not the size of the order, is always our top priority. The **INVERSPEED powder production system** was developed specifically for smaller quantities and faster delivery with a dedicated team strategically located in Nässjö.

OPTIMAL PERFORMANCE

VALUE PROPOSITIONS

PRODUCT PERFORMANCE

ENVIRONMENTAL CARE

CUSTOMER VALUE

Sherwin-Williams is a preferred coating supplier to Volvo Group globally and currently supplies different OEM plants in Sweden, Germany, France, US, China, Brazil and South-Africa. We supply and support many subcontractors globally with a broad, approved Volvo portfolio. We focus on sustainable solutions that bring most value to you.

Reducing our impact on the environment. Helping the neighborhoods where we live. Creating a workplace that is safe and diverse. Assisting our customers to sell more of what they make. These are our objectives. As Sherwin-Williams, we are meeting them in big ways!

Environmental care

- Eco-responsible coatings
- Low VOC, zinc-free content
- Complete regulatory compliance

Product performance

- Customized solutions
- New technologies and improvements
- Designed specifically for application method

Cost saving

- Increased production
- Good over-curing stability
- Faster cooling

Low cure sustainable solution

Whether you choose to decrease oven temperature for energy savings or to increase your throughput on the line, our low-cure solutions can benefit you. Faster cooling when packing means less waiting time. Rework costs decrease due to good over-burning stability and excellent coverage.
