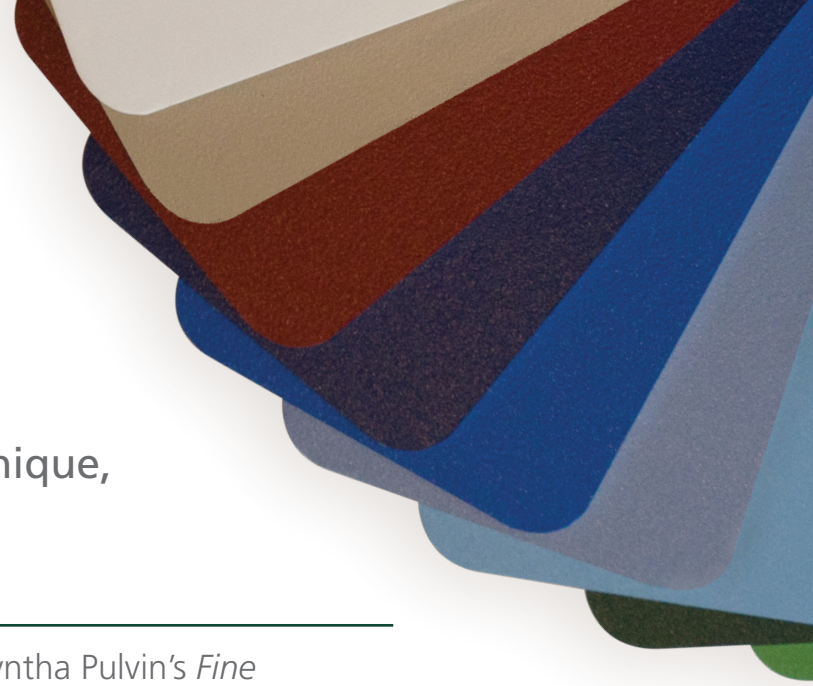
syntha pulvin | ARCHITECTURAL COATING SOLUTIONS



Introducing *Fine Texture Range*

Outstanding performance with a unique, textured finish

When a more sophisticated design is desired, Syntha Pulvin's *Fine Texture Range* of powder coatings provide a beautiful and trendy finish that will last for years to come.

Exceptional Colors

Syntha Pulvin's *Fine Texture Range* includes superior-performance architectural coatings colors carefully selected by Sherwin-Williams's color experts.

- Color palette creates a lasting impression
- Excellent color consistency
- Suitable to residential and monumental building design
- Color trends orientated to future global development

Outstanding Performance

All Sherwin-Williams powder coatings fully comply with the criteria and standards set by the Quality Associations: GSB Standard and Qualicoat Class 1

- Excellent exterior durability
- Remarkable abrasion resistance
- Reduced cleaning frequency

A History of Excellence

For more than 150 years, Sherwin-Williams has been a leader in the art and science of coatings that excel in both beauty and function. The *Fine Texture Range* represents a major breakthrough in powder-coating technology focused on eco-friendly products designed for the architectural market. *Fine Texture Range* makes our cumulative knowledge of architectural color trends available to you. Sherwin-Williams has developed the *Fine Texture Range* with the scope to convey emotion, define global cultures, awaken the spirit, stir the soul, embellish desires, and, finally, help all of us to evolve into the realm of color.
