BEVEL COATINGS

FOR PARQUET, LAMINATE AND MULTILAYER MODULAR FLOORING

We are happy to introduce two families within our range of Bevel coatings: the 127-series and the 129-series. The article codes start with 127- and 129- followed by the specific code of each colour.

- 127-series is for non-absorbent substrates
- 129-series is for absorbent substrates.

TECHNICAL DATA

- **Technology:** Water-based one-pack system
- **Product type:** Topcoat (Bevel)
- **Available colours:** All colours
- **Substrate:** Parquet, Laminate
- **Application:** Useable for all application methods:
 - 127-series: Vacuum Coater, Transfer Disc, Spraying.
 - 129-series: designed for vacuum coater application, but also available in a modified version (faster drying) for transfer disc and spray application

Features & Benefits		
EASY PROCESSING	TECHNICAL PROPERTIES	ADDED VALUES
Universal application methods (Vacuum Coater, Transfer Disc, Spraying)	Colour-match to the base colour of the floor design	Emphasizes the character of the floor design
Low set-up costs (“plug & play”)	Good covering properties with only one layer application	Camouflaging the v-cut of the floor design
Good opacity	Good chemical resistance	Protecting the substrate from water ingress and swelling
Robust application properties	Good water resistance in the bevel	-
Very low tendency of filter clogging	Available in all colours	-
Easy-to-clean	-	-

Note: Always consult with your Technical Representative to get the best process for your line.

SHERWIN-WILLIAMS - YOUR COATING SOLUTIONS PARTNER

The Sherwin-Williams Company (SHW), through its Performance Coatings Group Division, is an industrial coatings leader that delivers local finishing solutions on a global scale to OEMs and tier suppliers.

Comprised of coatings professionals dedicated to providing unparalleled customer support, Sherwin-Williams brings value to the finishing process through solutions like on-site technical assistance, customized products, colour and design services, and process improvement expertise.

With innovative liquid and powder coating technologies to protect wood, metal and plastic, as well as finishing equipment and supplies needed for coatings application, Sherwin-Williams utilizes an infrastructure spanning six continents to provide better finishing solutions for manufacturers.

Since 1866, Sherwin-Williams has provided manufacturers and finishers with the coatings they need to make their products look better and last longer, while helping their operations meet productivity and sustainability goals.

For the industrial wood markets, our innovative solutions go beyond coatings to include knowledge, tools, equipment, supplies, and industry-leading support.

We're more than a coatings provider - we are Your Coating Solutions Partner.
