LAQVA TOP BIO EG1342 FOR KITCHEN CABINETS

PLANT-BASED TWO-PACK WATERBORNE TOPCOAT FOR KITCHEN CABINETS

EG1342 gives a very fast stacking time vs other two-pack waterborne topcoats. Only after 45 minutes in a high oven it can be turned around and coated on the other side which is much faster than i.e. EG1351.

By using 5 w% EV1005 as crosslinker you will also have the best possible hand cream resistance. Better than conventional two-pack solventborne Acid

Curable products like DH1326.

Ethanol resistance is also very good which makes it suitable for Kitchen Cabinet doors.

EG1342 is available in several different formulations and in different glosses. Example:

- EG1342-91512B Laqva Top 20 Base A
- EG1342-91513B Laqva Top 30 Base A
- EG1342-91532B Laqva Top 25 Base C

TECHNICAL DATA

- **Technology:** Waterborne
- **Product type:** Pigmented Topcoat
- **Available colours:** White, Off-White, Clear Base C
- **Available in gloss:** 20, 25, 30
- **Application:** Spray airless and airmix
- **Substrate:** Primed MDF, Melamine foil or Solid wood

FEATURES	BENEFITS
Using the crosslinker EV1005 gives EG1342 very good resistance	Perfect Ethanol resistance
	No problem with Pot-life
	Very good hand cream resistance
	Good option for Kitchen Cabinet doors
Can be turned and coated on the other side after 45 min	Increased productivity

Application System:

Function	Product Number	Coverage (g/m ²)	Drying Time
Laqva Top Bio	EG1342	120-130 g/m ² , on Melamine paper or primed panels either with a pigmented primer or clear sealer	30 min - 60 min

*Values and content will change depending on Technology and Segment.
