

## NEXT-GENERATION WATERBORNE COATING WITH INNOVATIVE APPLICATION AND PERFORMANCE CHARACTERISTICS

Choosing a waterborne coating doesn't mean sacrifices in productivity or finish. You can still receive the environmental benefits of a waterborne while delivering the application efficiency, outstanding appearance and long-term performance that your customers count on with SHER-WOOD EA Hydroplus Topcoat.

This revolutionary waterborne topcoat can be applied across a wide spectrum of environmental conditions without the productivity-sapping performance trade-offs commonly associated with waterborne coatings.

### RECOMMENDED USES

- Kitchen cabinets
- Furniture
- Building products

### HIGHLIGHTS

- Environmentally adaptive technology provides consistent application and performance across a variety of environmental conditions:
  - 50°F/30 percent relative humidity (cold and dry conditions) to 80°F/85 percent relative humidity (hot and humid conditions)
- The Sherwin-Williams Color Express™ program delivers quick turnaround of custom color orders
- Excellent flow, leveling and hang for a beautiful, smooth finish
- Self-sealable, with excellent hide in two coats
- Available in both clear and pigmented finishes
- Meets or exceeds KCMA test requirements when properly applied
-  Low-VOC content and GREENGUARD Gold certified, helping shops meet their sustainability goals

# SHER-WOOD® EA HYDROPLUS™ WATERBORNE TOPCOAT

## BENEFITS

### Productivity

- Keep your application process in motion across a wide spectrum of temperature and humidity conditions
- Reduce touchups and rework from improved application quality
- Eliminate steps with a self-seal system

### Aesthetics

- Elevate appearance of your product with a finish approaching solventborne
- Improve your color reliability and repeatability from the Sherwin-Williams Color Express program
- Reduce labor while achieving better results through excellent hide and appearance capabilities

### Sustainability

- Meet key regulations through the greatly reduced VOCs of a waterborne coating
- Reduce the need for harsh chemicals for clean up and disposal of waste
- Improve safety profile with reduced storage and transportation requirements

## DEDICATED TO THE DETAILS OF WOOD FINISHING

At Sherwin-Williams, color is at the heart of everything we do. Our Industrial Wood DesignHouse is dedicated to providing custom colors and proprietary finishes to optimize wood products for the markets we serve. Our services include

- Information on long- and short-term color trends
