KEM AQUA® BP Siding Select

Premium Performance Siding Coating

Flaking, change in color,
and loss of adhesion limited
warranties* available

KEM AQUA® BP Siding Select is a single-component monochromatic coating for wood and composite siding, doors, trim, and shutters. This innovative waterborne system has an enhanced pigment platform with UV-absorbing technology, providing an industry leading fade-resistant limited warranty* that also includes resistance to chipping, cracking, and peeling.

KEM AQUA BP Siding Select provides longer-lasting color and gloss retention and can be formulated to a wide range of colors utilizing the monochromatic bases. KEM AQUA® Solar Reflective colorants can be used for temperature-sensitive substrates and help reflect solar rays, repelling heat in dark colors to prevent warping and bowing.

- 20- and 30-year limited warranties* available†
- Resistance to chipping, cracking, and peeling
- UV-absorbing technology
- Available with solar reflective technology
- Excellent performance on a wide variety of substrates, including primed wood and polymer composites†

*Change in color, including fade-resistance, limited warranty extends over a 15-year period as defined by ASTM D2244-16. Flaking and loss of adhesion, including chipping, cracking, and peeling are included in the 20- and 30-year portions of the limited warranty.

† Use of KEM AQUA BP Siding Select does not automatically result in any product warranty(ies). A warranty request must be submitted per standard operating procedures. Must go through the approved substrate testing protocol. Contact your Sherwin-Williams Industrial Wood representative for more information.

Since 1866, Sherwin-Williams has provided manufacturers and finishers with the coatings they need to make their products look better and last longer, while helping their operations meet productivity and sustainability goals. For the industrial wood market, our innovative solutions go beyond coatings to include knowledge, tools, equipment, supplies, and industry-leading support. For a better finish, ask Sherwin-Williams.
