ULTRA-CURE® MARGUARD™ 4037 UV TOPCOAT ENHANCER

FOR SOLID AND ENGINEERED WOOD FLOORING

Available for solid and engineered wood flooring, Ultra-Cure MarGuard 4037 UV Topcoat Enhancer is a 100% solids, UV-cure coating designed to improve scratch resistance and surface wear of a complete floor finishing system. This performance-enhancing specialty coating is applied at low film weight and can eliminate the need for an abrasion sealer. As a suitable alternative to an abrasion sealer, Ultra-Cure MarGuard 4037 UV Topcoat Enhancer helps meet consumers' demand for both performance and aesthetics.

- Improves scratch resistance and surface wear
- Good flow and hardness
- Provides a high-performance system with minimal film build for a more natural look
- Apply at 8-16 grams per square meter
- Excellent for open grain finish styles

Since 1866, Sherwin-Williams has provided manufacturers and finishers with the coatings they need to make their products look better and last longer, while helping their operations meet productivity and sustainability goals. For the industrial wood market, our innovative solutions go beyond coatings to include knowledge, tools, equipment, supplies and industry-leading support. For a better finish, ask Sherwin-Williams.
