## INTERIOR COATINGS FOR ALUMINUM TUBES

Sherwin-Williams Packaging Coatings is a trusted supplier of both interior and exterior aluminum tube coatings. Whether your aluminum tube is for food, pharmaceuticals, cosmetics, hair dye or specialty/alkaline household products, Sherwin-Williams offers a highly versatile and sustainable solution with our non-BPA\* epoxy interior coatings.

The valPure V70 technology platform is a non-BPA solution with epoxy-like performance that offers the advantages of traditional epoxy-based coatings without the BPA. The technology behind valPure V70 was developed through the Sherwin-Williams Safety by Design protocol.

\*Non-BPA - This designation indicates that the coating technology is based on polymeric components that are not derived from bisphenol A.

# valPure V70 INTERIOR COATINGS FOR ALUMINUM TUBES
