

FEEDING YOUR BUSINESS GROWTH

Preventing downtime is critical to running a profitable food and beverage business. Every minute a key asset is out of service, you're deprived of precious production time.

The biggest culprit for downtime is microscopic bacteria lurking in cracks and crevices caused by splashes and spillage. Because of these concerns, food and beverage processing facilities demand the highest levels of coatings performance.

According to the 2017 report, *The Real Cost of Unplanned Downtime—How to Avoid the Risks*, from Enterprise Strategy Group, the average cost of an unplanned shutdown in the food and beverage industry is an estimated \$30,000 per hour.

COMMITTED TO KEEPING YOUR PRODUCTION SAFE & UNINTERRUPTED

- Seamless transitions from walls to floors to eliminate areas where bacteria grows
- Shorter downtime for maintenance from quick-curing products
- Protection of your assets against harsh daily cleaning chemicals

BENEFITS

Extended Life of Assets

- Protect coatings from repeated use of daily cleaning chemicals and sterilants
- Extend maintenance intervals through excellent durability

Application Time Savings

- Accelerate your return to service with easy-to-install flooring systems
- Meet your process and working requirements – spray, brush or roller application

Cost Effectiveness

- Limit costly shutdowns with quick return to service coatings
- Plan projects proactively with Sherwin-Williams professional site evaluators to stay on time and on budget

UNMATCHED DISTRIBUTION AND SERVICE

Products You Need Right Now

Get the products you need with same or next-day delivery and gain access to local inventory at more than 5,000 company-owned distribution points in North America.

Technical Service for Optimal Applications

Our technical service team brings extensive technology and product knowledge, as well as manufacturer equipment training, to ensure proficiency throughout the entire coatings process.

THE SHERWIN-WILLIAMS DIFFERENCE

Sherwin-Williams Protective & Marine delivers world-class industry subject matter expertise, unparalleled technical and specification service, and unmatched regional commercial team support to our customers around the globe.

The industry experts at Sherwin-Williams Protective & Marine are renowned authorities in their respective fields of knowledge – including Bridge & Highway, Fire Protection, Flooring, Food & Beverage, Freight Rail, Marine, Oil & Gas, Power Generation, Steel Fabrication and Water & Wastewater. Our global technology expertise in areas including tank linings, passive fire protection, corrosion under insulation (CUI) testing and fusion-bonded epoxy drives game-changing innovation and influences global industry standards.
