

Employee welfare areas, such as bathrooms, shower/washroom facilities and break rooms, are often seen as a brief retreat for employees before, during and after their working hours. Keeping these areas consistently safe, clean and aesthetically pleasing can lead to a more productive team and higher employee retention rates.

Maintaining safety in these areas protects your greatest assets - your employees. According to *Business & Industry Connection* magazine, slip and fall injuries are among the most common workplace accidents, and the cost of a typical slip and fall injury averages over \$20,000. Additionally, not only should these spaces be functionally safe, but they also need to be easily cleaned to prevent fungus or bacteria growth, and to remain visually inviting.

**COST OF AN AVERAGE
SLIP AND FALL INJURY**

\$20,000+

COMPLETE SOLUTIONS FROM ONE SOURCE

Protective coatings play a crucial role in welfare areas. Your Sherwin-Williams protective coatings representative can evaluate these areas and make appropriate safety and design recommendations for your flooring and wall systems based on existing operating conditions.

FOOD & BEVERAGE

EMPLOYEE WELFARE COATING SOLUTIONS

FLOORS

Non-skid coatings can take several forms, and the right texture is dependent on your environment. Sherwin-Williams Bio-Flake® Decorative Flooring, Decorative Mosaic or Ceramic Carpet flooring systems provide skid and chemical resistance, high durability and appealing aesthetics. The skid resistance of your floor can also be modified via specific top coats or aggregate broadcast incorporated into the base coat.

High Performance Flooring

- Bio-Flake® Urethane Cement with decorative flake (1/4" thickness)
- Decorative Mosaic 1/8" epoxy
- Ceramic Carpet epoxy quartz system
- Integral decorative epoxy cove base applications and proper slope to drain

WALLS AND CEILINGS

To protect your walls and ceilings, coatings such as Sherwin-Williams Saniglaze® or Saniflex® will offer key protection against unwanted contaminants. These solutions are formulated and tested to resist the growth of fungus and bacteria, and maintain a smooth, highly washable surface texture.

Wall & Ceiling Systems

- Saniglaze® High Build Wall System
- Saniflex® Interior Wall System

BENEFITS

Extended Life of Assets

- Protect your assets against harsh daily cleaning chemicals
- Extend maintenance intervals through excellent durability

Application Time Savings

- Accelerate your return to service with easy-to-install systems
- Meet your process and working requirements – spray, brush or roller application

Cost Effectiveness

- Prevent costly workplace accidents, health hazards and employee downtime with non-skid and easy-to-clean coatings
- Plan projects proactively with Sherwin-Williams professional site evaluators to stay on time and on budget

UNMATCHED DISTRIBUTION AND SERVICE

Products You Need Right Now

Get the products you need with same or next-day delivery and gain access to local inventory at more than 5,000 company-owned distribution points in North America.

Technical Service for Optimal Applications

Our technical service team brings extensive technology and product knowledge, as well as manufacturer equipment training, to ensure proficiency throughout the entire coatings process.
