HEALTHCARE FACILITY COATINGS FORMULATED FOR A HIGHER STANDARD OF CARE

Healthcare facility construction and renovation projects are highly specialized, mission-critical and detail-driven. Sherwin-Williams understands the high demands of healthcare settings, including the need to prioritize sanitation, durability and compliance without sacrificing calming, professional aesthetics. Our coatings help ensure every surface supports a clean and efficient environment that promotes patient care, staff performance and long-term facility integrity.

COATING NORTH AMERICA'S HEALTHCARE FACILITIES

- University of Chicago Medicine Cancer Center, *Chicago, IL*
- Washington University School of Medicine, *St. Louis, MO*
- Galveston National Lab, *Galveston, TX*
- Atrium Health, *Charlotte, NC*
- Montreal Jewish Hospital, *Montreal, QC*
- Good Samaritan Hospital, *West Islip, NY*

UNCOMPROMISING COATINGS FOR COMPROMISE-FREE CARE

- **Trusted fire protection:** Intumescent coatings help maintain structural integrity and support safe patient and staff evacuation in the event of a fire
- **Sanitary finishes:** Smooth, non-porous coatings support rigorous cleaning and help reduce contamination
- **Chemical- and stain-resistant surfaces:** Engineered to withstand frequent disinfecting agents and other chemicals
- **Durable, impact-resistant systems:** Designed to perform under constant traffic from carts, gurneys and equipment
- **High-performance flooring systems:** Seamless, easy-to-clean and slip-resistant for patient and staff safety
- **Architectural coatings:** Available in sanitizing, air purifying and anti-microbial technologies, as well as calming colors and sheens to support wayfinding, branding and patient experience

HIGH PERFORMANCE WHERE IT MATTERS

NON-STERILE/COMMON SPACES

Exam/Patient Room, Pre-Operating Room, Speech/Physical Therapy Room, Nurses Station, Supply Room, Dialysis Area, Waiting Room

- Resuflor® Systems — Customizable for slip resistance and wear protection
- Terrazzo and Decorative Flake Systems — Add aesthetic appeal while maintaining performance
- Pro Industrial™ Acrylic Systems — LEED-compliant, single-component, scrubbable wall finishes for high-traffic areas, beautifies space with color and durability
- Accelera Floor Systems — Extremely durable, resistant to staining from spills or leaks, low odor and fast return to service

OPERATING ROOM

- Resuflor™ SofTop™ Flooring — Ergonomic systems designed for comfort and sustainability
- Pro Industrial™ Waterbased Catalyzed Epoxy and Acrolon® 100 HS Waterbased Urethane Systems — Low odor, LEED-compliant coatings

PARKING LOT

- Water Repellents and Repair Mortars — For cracks, spalling and alkali-silica reactivity
- Resudeck® Flooring System — For waterproofing, skid resistance and ability to withstand impact for vehicular and pedestrian traffic surfaces
- Pro Park Traffic Marking Paint — Delivers high-visibility, long-lasting striping that stands up to heavy traffic and harsh outdoor conditions

PHARMACY

COMPOUNDING AREA, CLEAN ROOM

- Resuwall Wall Coating Systems — Highest durability and cleanability
- Pro Industrial™ Acrylic Systems — LEED-compliant, single-component, scrubbable wall finishes for high-traffic areas, beautifies space with color and durability
- Resuflor Systems — Customizable for slip resistance and wear protection

EMERGENCY ROOM

- Pro Industrial™ Waterbased Catalyzed Epoxy and Acrolon® 100 HS Waterbased Urethane Systems — Low odor, LEED-compliant coatings
- Accelera Floor Systems — Extremely durable, resistant to staining from spills or leaks, fast return to service

STRUCTURAL

- Heat-Flex® AEB Thermal Insulation — A high-performance insulating coating designed to reduce surface temperatures and protect equipment operating under extreme heat conditions
- FIRETEX® Intumescent Fire Protection — An intumescent coating that expands when exposed to fire to form a protective char, preserving structural steel integrity
- Sher-Loxane® 800 — A durable polysiloxane topcoat that delivers excellent corrosion resistance, color retention and long-term weatherability

ROOFING

- Uniflex® Fluid Applied Roofing Solutions — Seamless waterproofing, UV resistance and energy efficiency — a smart, long-lasting choice where performance and protection are critical

BATHROOM

- Pro Industrial™ Waterbased Epoxy Systems — Low odor, LEED-compliant coatings
- Hybriflex® Floor Systems — Extremely durable, resistant to moisture and staining from spills or leaks

MECHANICAL ROOM

- Resuflor™ Mechanical Room SB/DB — Reinforced epoxy systems for chemical and impact resistance
- Pro Industrial Waterbased Epoxy Systems — Low odor, LEED-compliant, waterbased epoxy coatings resist frequent cleaning, marring from physical contact and water splash

STERILE/HEAVY EQUIPMENT AREAS

Imaging Room, ICU Room, Sterile Processing Area, Clean/Soiled Utility Room, Laboratory

- Resuwall™ Wall Systems — Excellent resistance in sterile environments and heavy equipment areas.
- Hybriflex Floor Systems — Extremely durable, excellent resistance to moisture from high-cleaning areas with potential spills and leaks
- Pro Industrial™ Waterbased Epoxy Floor and Wall — Low odor, LEED-compliant coatings

DOORS AND TRIM

- Pro Industrial™ Waterbased Alkyd Urethane Systems — LEED-compliant, low-VOC, impact-resistant finish

KITCHEN/CAFETERIA

- Poly-Crete™ Flooring Systems — Antimicrobial, thermal shock-resistant flooring
- Accelera® 4850 — Seamless and resistant to stains and elevated temperatures
- Resuwall Wall Systems — Addresses both functional needs and aesthetic aspirations

LOBBY/ENTRANCE

- Resuflor® Systems — Customizable for slip resistance and wear protection
- Resuflor® Terrazzo TG and Decorative Flake Systems — Adds aesthetic appeal while maintaining performance
- Pro Industrial™ Acrylic Systems — LEED-compliant, single-component, scrubbable wall finishes for high-traffic areas

METAL FACADE

- Fluoropon® — A broad portfolio of industrial coatings providing durable protection and aesthetic performance across heavy-duty environments

TRUSTED PROTECTION ACROSS EVERY POINT OF CARE

FACTORY-APPLIED METAL COATINGS

We offer advanced coil coatings designed to shield metal surfaces from corrosion, UV exposure, abrasion and chemical damage.

STRUCTURAL STEEL

Sherwin-Williams structural steel coatings deliver fast, safe and durable protection for structural steel, engineered to drive throughput with safer, faster corrosion protection across both interior conditioned spaces and exterior exposures.

INTUMESCENT FIRE PROTECTION

FIRETEX® passive fire protection systems feature smooth, architectural-grade intumescent coatings that expand under heat — helping maintain structural integrity and supporting safe evacuation.

HIGH-PERFORMANCE FLOORING

In high-traffic environments, flooring systems endure a wide range of demanding conditions. Sherwin-Williams resinous flooring delivers exceptionally strong and long-lasting surfaces.

CEILING AND WALL SYSTEMS

Sherwin-Williams wall systems are chemical- and sterilant-resistant, and each system is engineered to reduce downtime and deliver the exceptional performance you demand.

MECHANICAL, ELECTRICAL AND PLUMBING (MEP)

Efficient operations rely heavily on robust MEP systems. Sherwin-Williams offers a full range of protective pipe coatings, including high-heat options and corrosion-resistant solutions.

EXTERIOR COATINGS

Sherwin-Williams exterior protective coatings are designed to withstand UV rays and extreme weather conditions. Choose from our specialized options that offer superior resistance to mold, mildew and fungus, ensuring your surfaces stay pristine year-round.

ROOFING

Sherwin-Williams UNIFLEX® fluid-applied roof coatings offer a practical way to restore and extend the life of existing roof systems.

TRAFFIC DECK MEMBRANES

Parking structures — including garages, pedestrian bridges and walkways — face constant stress from traffic, weather and chemical exposure. Sherwin-Williams offers durable, moisture-resistant and UV-stable parking deck systems designed to withstand heavy use and harsh conditions.

TRAFFIC MARKINGS

Our highly visible formulas are ideal for highlighting curbs, identifying handicapped and emergency zones and defining traffic boundaries.

DESIGN AND SPECIFICATION EXPERTISE FROM THE START

Our team works with owners, engineers and contractors to deliver tailored coating solutions that extend asset life. We support projects with specification development, product selection and system recommendations — even for the toughest environments. Let us help provide you with coatings that meet your needs:

PERFORMANCE AND DURABILITY

- Withstand harsh environments
- Resist wear and tear
- Protect substrates from corrosion and degradation

SUSTAINABILITY AND CERTIFICATIONS

- Low VOC formulations for LEED credits and healthier environments
- Third party verified documentation for transparency
- Lifecycle benefits for longer lasting environmental impact

AESTHETIC IMPACT

- Color and finish options to match branding
- Coatings that maintain appearance over time
- Supports biophyllic design and neurasthetics

CODE AND COMPLIANCE SAFETY

- Fire-resistant coatings for structural steel
- Slip resistance on walking surfaces
- Antimicrobial options for hygiene

THE SHERWIN-WILLIAMS DIFFERENCE

Sherwin-Williams Protective & Marine delivers world-class industry subject matter expertise, unparalleled technical and specification service, and unmatched regional commercial team support to our customers around the globe. Our broad portfolio of high-performance coatings and systems that excel at combating corrosion helps customers achieve smarter, time-tested asset protection. We serve a wide array of markets across our rapidly growing international distribution footprint, including Energy, Water & Wastewater, Bridge & Highway, Steel Fabrication, Flooring, Manufacturing & Processing, Fire Protection, Marine, Rail and Power.

Unparalleled
distribution network

Global
industry expertise

Unmatched technical
and specification service

One-stop shop for
equipment and supplies
