

WATER INFRASTRUCTURE COATING SOLUTIONS FOR EQUIPMENT MANUFACTURERS

WATER INFRASTRUCTURE COATING SOLUTIONS FOR EQUIPMENT MANUFACTURERS

Engineered For Performance. Built For Your Production Process.

Water infrastructure demands durability, consistency and compliance across every asset you manufacture. We work with equipment manufacturers and their fabrication partners to deliver high-performance coating systems that ensure reliable protection and consistent quality — from design and production through field service.

YOUR MANUFACTURING ADVANTAGE

Consistent Quality Across Fabrication Locations:

Standardized coating systems to ensure the same performance, regardless of where products are built.

Accelerated Production Throughput: Fast-curing technologies support tighter production schedules and improved shop efficiency.

Application Efficiency: Optimized systems designed for high transfer efficiency, repeatable film builds and reduced variability.

Reduced Rework and Warranty Risk:

Proven coating performance minimizes defects, callbacks and life cycle failures.

Sustainability: Low-VOC, high-solids solutions that support environmental goals and reduce waste.

Regulatory Confidence: Systems aligned with American Water Works Association (AWWA), NSF/ANSI/CAN 61 & 600 and VOC requirements across regions.

TARGET APPLICATIONS

- Grit removal systems
- Clarifiers
- Activated sludge systems
- Trickling filters
- Oxidation ditches
- Biological reactors
- Gravity filtration systems
- Carbon adsorption systems
- Ion exchange systems
- Digestion systems
- UV disinfection systems
- Chlorination/chlorine dioxide systems

CORE COATING SYSTEMS

Epoxies

High-performance corrosion protection for immersion, abrasion and chemical exposure.

Polyurethanes

UV-resistant topcoats deliver long-term durability and color retention.

Zinc-Rich Primers

Cathodic protection for steel substrates in aggressive environments.

High-Build Linings

Long-term protection for potable water and wastewater service conditions.

DESIGNED FOR OEM SUCCESS

We understand the unique challenges equipment manufacturers face — balancing production efficiency, quality control and long-term asset performance, often across multiple fabrication environments.

Our coating solutions are engineered to help you maintain control — no matter where or how your products are built.

WHY SHERWIN-WILLIAMS

END-TO-END SUPPORT

From specification development to application guidance across your fabrication process, our dedicated specialists and technical service teams are here to support you.

TECHNICAL EXPERTISE

Dedicated coating specialists and field technical service teams supporting both OEMs and fabricators.

STANDARDIZATION

Coating systems are designed to deliver consistent results across in-house and third-party fabrication facilities.

GLOBAL SUPPLY CHAIN

Reliable product availability backed by an extensive manufacturing and distribution footprint.

PROCESS OPTIMIZATION BENEFITS

- Reduced cycle times with fast-curing technologies
- Improved transfer efficiency and reduced material waste

- Consistent film thickness and edge retention
- Lower labor costs and reduced rework
- Greater predictability across multiple fabrication partners

COMPLIANCE & PERFORMANCE STANDARDS

- AWWA
- NSF/ANSI/CAN 61 & 600
- ISO Standards
- SSPC/NACE/AMPP surface preparation compatibility

WORK WITH CONFIDENCE

Whether your equipment is fabricated internally or through a network of contract shops, we can help you:

- Maintain coating consistency across all builds
- Reduce risk across the product life cycle
- Deliver reliable, compliant systems to your customers

From fabrication to field performance, we help protect the infrastructure your customers depend on.

WATER INFRASTRUCTURE COATING SOLUTIONS FOR EQUIPMENT MANUFACTURERS

ENGINEERED FOR PERFORMANCE.
BUILT FOR YOUR PRODUCTION NETWORK.

THE SHERWIN-WILLIAMS DIFFERENCE

Sherwin-Williams Protective & Marine delivers world-class industry subject matter expertise, unparalleled technical and specification service, and unmatched regional commercial team support to our customers around the globe. Our broad portfolio of high-performance coatings and systems that excel at combating corrosion helps customers achieve smarter, time-tested asset protection. We serve a wide array of markets across our rapidly growing international distribution footprint, including Energy, Water & Wastewater, Bridge & Highway, Steel Fabrication, Flooring, Manufacturing & Processing, Fire Protection, Marine, Rail and Power.

Unparalleled
distribution network

Global
industry expertise

Most extensive sales
organization coverage

Unmatched technical
and specification service
