STADIUM AND ARENA COATINGS TO ELEVATE YOUR GAME

Stadium and arena construction and renovation projects are large-scale, multifaceted and capital-intensive. Sherwin-Williams understands the unique challenges of stadium and arena environments — including the need to balance performance and aesthetics with sustainable solutions. Sherwin-Williams coatings help ensure every surface contributes to a safe, efficient and visually compelling experience for fans, staff and athletes alike.

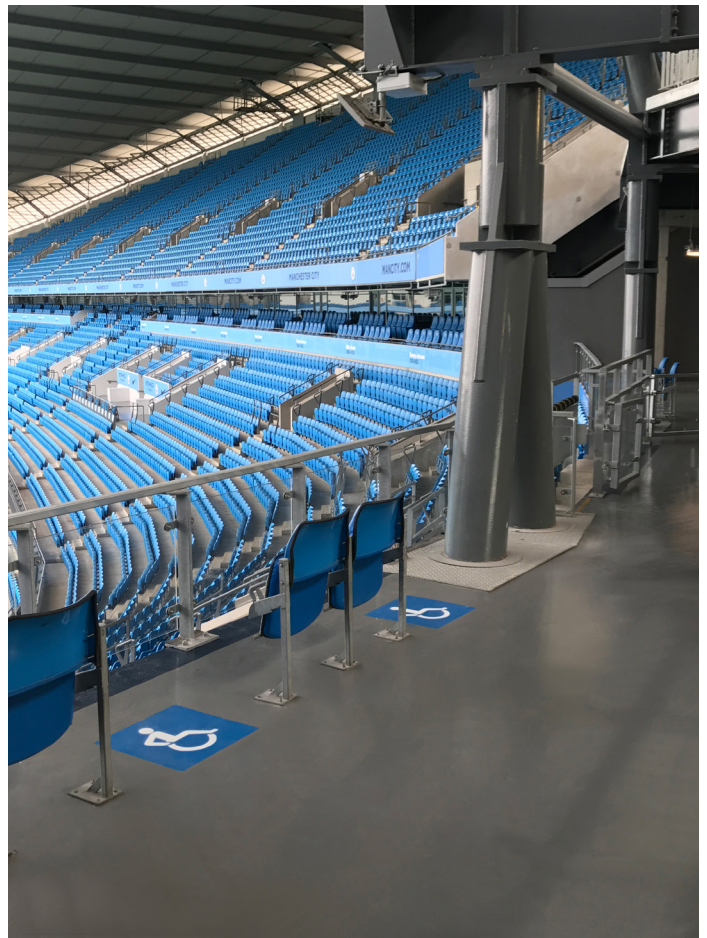

COATING NORTH AMERICA'S MOST ICONIC STADIUMS

- **Globe Life Field,**
Texas Rangers, Arlington, TX
- **Rocket Arena,**
Cleveland Cavaliers, Cleveland, OH
- **Mercedes Benz Stadium,**
Atlanta Falcons, Atlanta, GA
- **Q2 Stadium,**
Austin FC, Austin, TX

COATINGS THAT PERFORM UNDER PRESSURE

- **Trusted fire protection:** intumescent coatings help maintain structural integrity and support safe evacuation
- **Slip-resistant safety:** engineered finishes reduce fall risks in wet, high-traffic areas
- **Hygienic surfaces:** seamless, non-porous coatings resist stains and support easy maintenance
- **Chemical- and abrasion-resistant finishes:** for kitchens, concourses and maintenance zones
- **High-performance flooring systems:** designed for durability, cleanability and slip resistance
- **Architectural coatings:** available in a wide range of colors and sheens to support branding and wayfinding

HIGH-PERFORMANCE SOLUTIONS BUILT FOR THE BIG LEAGUES

ARCHITECTURAL STEEL

- Inorganic or Organic Zinc Primers — Corrosion resistance and long-term durability
- Powder Coatings — Great for smaller steel elements
- Polysiloxane — A high-performance epoxy and a polyurethane in one coat

RESTROOMS & LOCKER ROOMS

- Crylaflor™ Flooring Systems — Fast curing, seamless and resistant to moisture and chemicals
- Resuflor™ Flooring Systems — Customizable epoxy and urethane systems
- Polyurethane Cement Systems — Extremely durable and resistant to thermal shock

SEATING BOWL & CONCOURSE

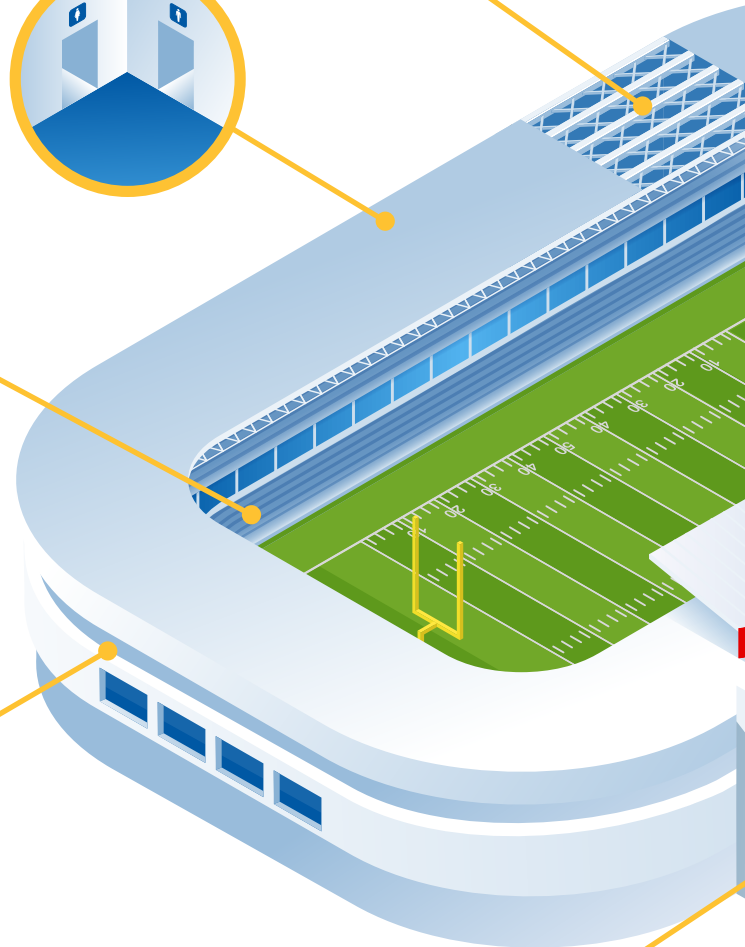

- Resuflor® Systems — Customizable for slip resistance and wear protection
- Terrazzo® and Decorative Flake Systems — Add aesthetic appeal while maintaining performance
- Crylaflor® Flooring Systems — Rapid installation, slip resistance and ability to withstand impact

MECHANICAL ROOMS

- Resuflor™ Mechanical Room SB/DB — Reinforced epoxy systems for chemical and impact resistance

REBAR & EMBEDDED STEEL

- Sher-Bar™ — Superior bond strength, corrosion resistance and compatibility with protective coatings, ensuring long-term structural integrity in demanding environments

BACK-OF-HOUSE & SERVICE CORRIDORS

- Wall and Cove Systems — Superior abrasion resistance, easy cleanability and long-term durability in areas exposed to frequent traffic and operational wear

RAILINGS & METAL FIXTURES

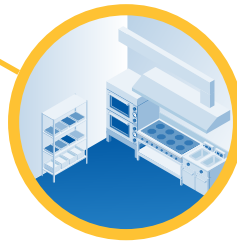

- All Surface Enamel Oil Base — Durable finish for exterior metal railings
- All Surface Enamel Primer — For adhesion and corrosion resistance

PARKING STRUCTURES

- Water Repellents and Repair Mortars — For cracks, spalling and alkali-silica reactivity
- Resudeck® Flooring System — For waterproofing, skid resistance and ability to withstand impact

CONCESSION AREAS & KITCHENS

- Poly-Crete™ Flooring Systems — Antimicrobial, thermal shock-resistant flooring
- Resuflor™ Topcoat Systems — Seamless, stain-resistant and easy to clean
- Resuwall™ Wall Systems — Addresses both functional needs and aesthetic aspirations

ROOF COATINGS

- Uniflex® Fluid Applied Roofing Solutions — Seamless waterproofing, UV resistance and energy efficiency — a smart, long-lasting choice where performance and protection are critical

EXTERIOR FAÇADE

- Firetex® Intumescent Coatings — Combining aesthetic flexibility with proven performance
- Sherloxane® 800 — For exterior durability and UL compliance

COURT-READY, FIELD-TESTED: COATINGS FOR EVERY ARENA

COIL AND EXTRUSION

We offer advanced coil coatings designed to shield metal surfaces from corrosion, UV exposure, abrasion and chemical damage.

STRUCTURAL STEEL

Sherwin-Williams structural steel coatings deliver fast, safe and durable protection for structural steel in stadiums and arenas, engineered to drive throughput with safer, faster corrosion protection across both interior conditioned spaces and exterior exposures.

INTUMESCENT FIRE PROTECTION

FIRETEX® passive fire protection systems feature smooth, architectural-grade intumescent coatings that expand under heat — helping maintain structural integrity and supporting safe evacuation.

HIGH-PERFORMANCE FLOORING

In high-traffic environments like stadiums and arenas, flooring systems endure a wide range of demanding conditions. Sherwin-Williams resinous flooring delivers exceptionally strong and long-lasting surfaces.

CEILING AND WALL SYSTEMS

Sherwin-Williams wall systems are chemical- and sterilant-resistant, and each system is engineered to reduce downtime and deliver the exceptional performance you demand.

MECHANICAL, ELECTRICAL AND PLUMBING (MEP)

The efficient operation of stadiums and arenas relies heavily on robust MEP systems. Sherwin-Williams offers a full range of protective pipe coatings, including high-heat options and corrosion-resistant solutions.

EXTERIOR COATINGS

Sherwin-Williams exterior protective coatings are designed to withstand UV rays and extreme weather conditions. Choose from our specialized options that offer superior resistance to mold, mildew and fungus, ensuring your surfaces stay pristine year-round.

ROOFING

Sherwin-Williams UNIFLEX® fluid-applied roof coatings offer a practical way to restore and extend the life of existing roof systems.

TRAFFIC DECK MEMBRANES

Parking structures — including garages, pedestrian bridges and walkways — face constant stress from traffic, weather and chemical exposure. Sherwin-Williams offers durable, moisture-resistant and UV-stable parking deck systems designed to withstand heavy use and harsh conditions.

TRAFFIC MARKINGS

Our highly visible formulas are ideal for highlighting curbs, identifying handicapped and emergency zones and defining traffic boundaries.

DESIGN AND SPECIFICATION EXPERTISE FROM THE START

Our team partners with owners, engineers and contractors to deliver tailored coating solutions that extend asset life. We support projects with specification development, product selection and system recommendations — even for the toughest environments. Let us help provide you with coatings that meet your needs:

PERFORMANCE AND DURABILITY

- Withstand harsh environments
- Resist wear and tear
- Protect substrates from corrosion and degradation

SUSTAINABILITY AND CERTIFICATIONS

- Low VOC formulations for LEED credits and healthier environments
- Environmental Product Declarations for transparency
- Lifecycle benefits for longer lasting environmental impact

AESTHETIC IMPACT

- Color and finish options to match branding
- Coatings that maintain appearance over time

CODE AND COMPLIANCE SAFETY

- Fire-resistant coatings for structural steel
- Slip resistance on walking surfaces
- Antimicrobial options for hygiene

THE SHERWIN-WILLIAMS DIFFERENCE

Sherwin-Williams Protective & Marine delivers world-class industry subject matter expertise, unparalleled technical and specification service, and unmatched regional commercial team support to our customers around the globe. Our broad portfolio of high-performance coatings and systems that excel at combating corrosion helps customers achieve smarter, time-tested asset protection. We serve a wide array of markets across our rapidly growing international distribution footprint, including Energy, Water & Wastewater, Bridge & Highway, Steel Fabrication, Flooring, Manufacturing & Processing, Fire Protection, Marine, Rail and Power.

Unparalleled
distribution network

Global
industry expertise

Unmatched technical
and specification service

One-stop shop for
equipment and supplies
