

RESUFLOOR™ TOPFLOOR SL ADVANCED NMP EV

Resufloor Topfloor SL Advanced NMP EV is a 3mm thick epoxy self-levelling resin floor system with two highly chemical resistant topcoats providing a durable satin finish. Specifically designed for EV battery manufacturing plants due to its resistance to NMP and carbon black but also well suited to use in pharmaceutical, laboratories and chemical plants.

BENEFITS

- 14 day resistance to N-Methyl-2-Pyrrolidone (NMP)
- 14 day resistance to Dimethyl Carbonate (DMC)
- Very high chemical resistance to a broad range of chemicals
- Resistant to AGV/AMR wheeled traffic
- Lightly textured profile reduces slip potential
- Easy to clean off carbon black and graphite
- UV stable
