

DESIGNED TO PERFORM

INDUSTRIAL FLOORING

**SHERWIN
WILLIAMS®**

HIGH
PERFORMANCE
FLOORING

Efficient, heavy-duty floors designed to boost performance.

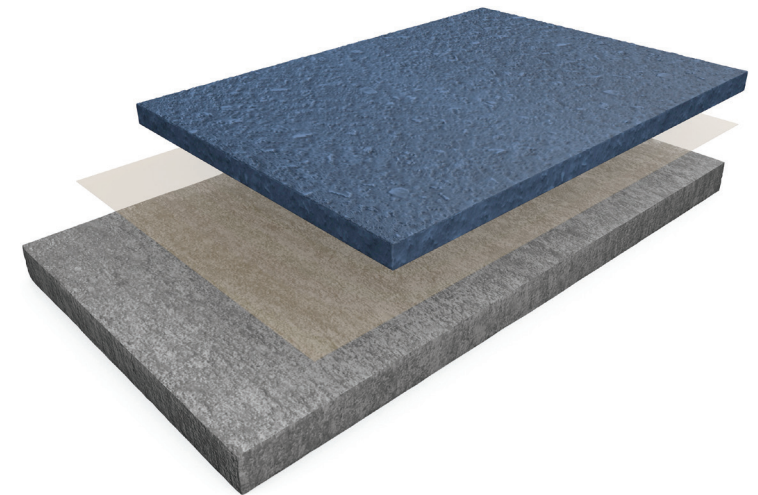

INDUSTRIAL FLOORING

RESUPRIME® 3579 AND RESUTILE® 4638

Discover a wide range of Sherwin-Williams High Performance Flooring systems for virtually any industrial application — from warehouses to parking decks to food service operations. Each solution is designed to minimize downtime while achieving the long-lasting durability your flooring requires. Concerns about facility staff and customer safety are addressed with hygienic, seamless, non-skid flooring solutions available in colors and textures that will contribute to a healthy and attractive environment.

Your dedicated Sherwin-Williams representative will answer your questions every step of the way, from assessing your unique project needs and recommending a flooring system to providing tech support during and after the installation phase.

These floors provide safety benefits like a good, highly-gripped surface, and they're easy to clean and maintain. They also look great and last for years."

Customized solutions for every single project

We offer a wide variety of high-build systems designed to meet your project’s particular needs. From high-impact resistance to cleanability or sustainability, our experts will help you choose the appropriate system. Applied in one or two coats over a primer, these systems are ideal for warehouses, parking decks, food service operations and storage areas.

WATERPROOFING FOR A VARIETY OF APPLICATIONS

Sherwin-Williams manufactures a wide range of urethane and epoxy-based liquid-applied membrane coatings with surface finishes to meet your slip resistance and decorative requirements. Whether you need to waterproof a parking deck, mechanical equipment room or sump area, we have the right system for you.

ENSURING COMPLIANCE

If you have a question regarding local and federal environmental compliance regulations, ASTM standards or recommended trade and association practices, our technical field representatives can help. Our team of industry experts (accredited by The Association for Materials Protection and Performance) has the in-depth answers you’re looking for to get the job done right.

INDUSTRIAL FLOORING SYSTEMS

RESUFLO® SCREED EPOXY FLOOR SYSTEMS

For added strength.

- Harder and more durable than concrete
- Can withstand aggressive wear, impact and thermal shock conditions
- Can be tailored to meet your requirements regarding traffic patterns, texture and color
- Trowel-applied

RESUFLO® MECHANICAL ROOM FLOOR SYSTEMS

For high-impact applications.

- Internally flexible epoxy
- Provide superior abrasion and thermal shock resistance
- Offer flexibility and waterproofing for high-impact industrial flooring applications
- Textured broadcast surface yields a finish that is durable and slip-resistant

PROJECT HIGHLIGHT

SOUTHWEST TRANSIT APPLIED 97,000 SQUARE FEET OF SHERWIN-WILLIAMS RESUFLO SCREED IN ITS MULTI-USE GARAGE. TODAY, THE FACILITY CONTINUES TO WITHSTAND THE CONSTANT BUS TRAFFIC, CHEMICALS ASSOCIATED WITH HEAVY AUTOMOBILE MAINTENANCE, AND THE HARSH ELEMENTS OF A MINNESOTA CLIMATE WITHOUT WORRYING ABOUT FLOOR DAMAGE.

POLY-CRETE™ HYGIENIC FLOOR SL13

PROJECT HIGHLIGHT

WHEN BIX PRODUCE BEGAN PLANS FOR EXPANDING ITS OPERATION, A HIGH-QUALITY FLOOR SYSTEM WAS AMONG ITS PRIORITIES. SHERWIN-WILLIAMS POLY-CRETE HYGIENIC FLOOR WAS A PERFECT FIT THANKS TO ITS CLEANABILITY, SLIP AND CHEMICAL RESISTANCE, AND CRYOGENIC AND HIGH-HEAT EXPOSURE TOLERANCE.

INDUSTRIAL FLOORING SYSTEMS

RESUFLO® AQUA EPOXY FLOOR SYSTEMS

For reduced environmental impact.

- Engineered using a proven water-based resin technology to provide efficient solutions to MVE challenges while meeting performance criteria
- Offer 100 times the permeability of standard epoxy floor systems
- Can be used underneath any flooring, including terrazzo and resinous floors, or as a stand-alone system
- Breathable and chemical resistant
- Contain low VOCs and emit low odors
- Easy to install, allowing for longer working time on the jobsite
- Can be applied to “green” concrete without taking moisture readings
- Systems include a coating, a 1/16-inch to 1/8-inch slurry

RESUFLO® SHOP FLOOR EPOXY SELF-LEVELING FLOOR SYSTEMS

For moderate traffic applications.

- Provide superior protection for moderate service conditions — especially aisles
- Available in skid-inhibiting or smooth finishes

When it comes to working with Sherwin-Williams and our customers, we create long-term solutions that lead to long-term relationships.”

FLOOR COATINGS CONTRACTOR

POLY-CRETE HYGIENIC FLOOR SYSTEMS

Upgrade your floor without the costly downtime.

- Offer fast and easy installation, quick return to service and long-lasting performance
- Provide hygienic, chemical-resistant and slip-resistant flooring solutions
- Extremely hard wearing
- Ideal for demanding environments
- Help facilities meet USDA, FDA and personal safety standards

SERVICE THAT STANDS OUT

Sherwin-Williams is your total solutions provider with the products you need and the service you deserve. Benefit from same or next-day delivery and gain access to local inventory at more than 4,750 company-owned distribution points.

Take advantage of our technical service team, which provides extensive manufacturer equipment training, to ensure proficiency throughout your entire coatings process.

THE SHERWIN-WILLIAMS DIFFERENCE

Sherwin-Williams High Performance Flooring delivers unique, sustainable flooring solutions to help your facilities maintain the highest level of performance from the ground up. Our extensive portfolio of flooring, structural steel and passive fire protection coatings for high-value infrastructure helps customers protect lives, enhance safety, safeguard assets and create a lasting aesthetic legacy. From sports arenas to convention centers, airports and healthcare facilities, Sherwin-Williams brings exceptional industry, product and technical expertise to ensure successful project outcomes.
