

STATIC CONTROL FLOORING SOLUTIONS

INDUSTRY-LEADING ESD PROTECTION
FOR A RANGE OF FACILITIES

STATIC CONTROL FLOORING REQUIREMENTS

Whether in a chemical plant, hospital operating room, powdered food warehouse or avionics hangar, static dissipative flooring, as part of a facility-wide safety program, must provide reliable performance over the long term. Yet every facility is unique. That’s why we offer a range of proven electrostatic dissipative flooring systems with a choice of aesthetics capable of performing in different operational environments, depending on traffic levels and chemical exposures.

PERFORMANCE AND DURABILITY

- Electrostatic dissipation — Consistent readings compliant with ESD/EOD standards
- Chemical resistance — Withstand exposure to many industrial fluids and solvents
- Abrasion resistance — Resist scratches and scrapes
- Bond, tensile and compressive strengths — Excellent adhesion and resilience
- Floor joints — Proper treatment of static and moving joints
- Moisture vapor mitigation — Effective solutions for concrete moisture issues

SAFETY

- Seamless — Eliminate crevices where dust and pathogens can hide and proliferate
- Slip resistance — Select among options according to facility needs
- Floor markings — Customizable per safety specifications

MAINTENANCE

- Easy care — Seamless surface enables efficient cleaning
- Economical — No special waxes needed to maintain static control properties

AESTHETICS

- Color selection — Choice of standard or custom colors, depending on system
- Decorative elements — Many options, depending on system

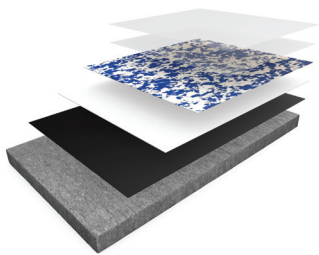

SUSTAINABILITY

- Energy savings — Light reflective options can enhance existing room illumination
- Environmental stewardship — Low VOC and low emissions options
- LEED®-certified — Can contribute green building points toward construction goals

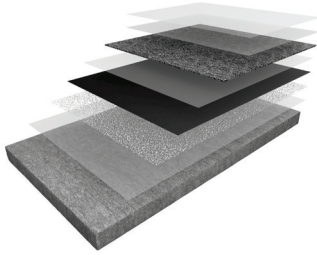

DIFFERENT STATIC CONTROL FLOOR SOLUTIONS FOR DIFFERENT SERVICE ENVIRONMENTS

DECORATIVE PERFORMANCE

Reliable static dissipative flooring with trend-forward design and a slip-resistant, high-gloss, chemical-resistant finish. Ideal for laboratories and front-of-house applications. Choose vinyl flake for moderate traffic or quartz aggregate for harder wear in standard and unlimited custom colors.

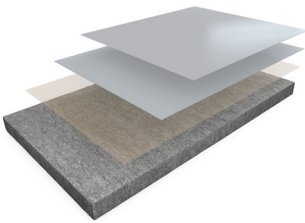

Resufloor™ Deco Flake SD

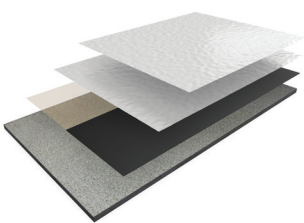

Resufloor Deco Quartz SD

MODERATE TO HEAVY USE AREAS

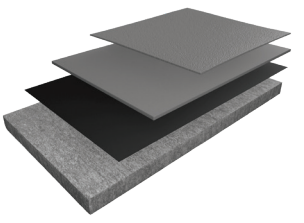

ESD safety for spaces with moderate to heavy foot, cart and forklift traffic, and chemical splash-and-spill risk in traditional and water-based systems. Choose from standard or custom solid colors, finished with high-solids epoxy or high-performance urethane.

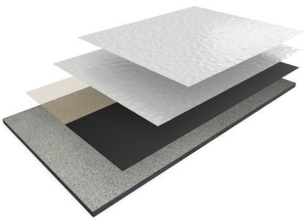

Resufloor Topcoat SDU
Resufloor Topcoat SDU EV
Resufloor Topcoat SDE

Resutile™ Topcoat SD
(conductive or SD available)

Resufloor Topfloor SL12 SD

Resufloor Topcoat SD

ESD FLOORING SOLUTIONS FOR:

- | | | | |
|------------------------------------|-------------------------------------|--|-----------------------------------|
| • Automotive and EV battery plants | • Aerospace and avionics facilities | • Laser and optical systems facilities | • Munitions and fireworks storage |
| • Semi-conductor fabs | • Pharmaceutical campuses | • Data centers and computer rooms | • Cosmetics manufacturing |
| • Electronics assembly and storage | • Healthcare facilities | • Oil and chemical production | • Bulk powder storage |

STATIC CONTROL FLOORING SOLUTIONS

INDUSTRY-LEADING ESD PROTECTION
FOR A RANGE OF FACILITIES

THE SHERWIN-WILLIAMS DIFFERENCE

Sherwin-Williams High Performance Flooring delivers unique, sustainable flooring solutions to help your facilities maintain the highest level of performance from the ground up. Our extensive portfolio of flooring, structural steel and passive fire protection coatings for high-value infrastructure helps customers protect lives, enhance safety, safeguard assets and create a lasting aesthetic legacy. From sports arenas to convention centers, airports and healthcare facilities, Sherwin-Williams brings exceptional industry, product and technical expertise to ensure successful project outcomes.

Unparalleled
distribution network

Global
industry expertise

Most extensive sales
organization coverage

Unmatched technical
and specification service
